

Birchville Digital Device Agreement 2019

Years 3-6

Student Agreement:

(BYOD, School Chromebook, and School Desktop)

- I will respect others by always using any device to interact with anyone in a kind, positive and helpful way.
- I will always be **in the right place, at the right time when I am online**. If in doubt I will ask my teacher or parent.
- I will not use any digital device before school or during break times unless my teacher has asked me to.
- I will never use an account that isn't mine.
- If I see anything rude or violent or something I am unsure about I will tell my teacher or parent straight away.
- I will protect my password and keep it completely secret.
- I will log out when I have finished using my digital device.
- If I damage a school device I will tell my teacher straight away.

When using a Digital Device:

1. No food or drink is allowed near any digital device.
2. Chromebooks can only be charged in the lockup room. If you have your own BYOD it is your responsibility to come to school with your device fully charged.
3. If you are working at a table, keep your Chromebook away from the edges and other contents that could lead to the damage of your device.
4. If you are working on the floor, choose a space where people can see you so they don't trip over and hurt you, themselves or the Chromebook.

As a Birchville student, I agree to this Digital Device Agreement and I understand that if I break any of these rules it could result in a loss of digital privileges and my parents being contacted.
